Thai Beverage Public Company Limited

Management Discussion and Analysis

Performance for the year ended 31 December 2015

Effective from 27 March 2015, all alcoholic beverages and tobacco have been charged an additional 2% of excise tax by law to contribute to National Sports Development Fund. Currently, the Company pays excise tax plus municipal tax, Health Promotion Fund contribution, Thai Public Broadcasting Service levy and the latest one, National Sports Development Fund, for 10.0%, 2.0%, 1.5% and 2.0% of excise tax, respectively. Thus, the Company pays excise tax plus 15.5% of excise tax for the total above mentions. The Company's current selling prices of its alcoholic beverage products have already covered this additional charge.

Due to a higher interest rate in Singapore and an appreciation of Baht against Singapore dollar in January 2015, the Company refinanced Singapore dollar loans with Baht short-term loans to avoid the floating interest rate and the currency exposures. Nonetheless, the Company restructured the Baht short-term loans amounting to Baht 25,000 million in June 2015 by issuing 18-month bills of exchange of Baht 5,000 million and entering into long-term loans with financial institutions of Baht 20,000 million. The repayment will vary based on loan terms from 18 months to 36 months during years 2016 - 2018.

On 17 April 2015, Sermsuk Public Company Limited ("Sermsuk"), an indirect subsidiary of the Company, sold and transferred ownership on the plot of land and building to a related company. The net cash received after deducting related expenses was Baht 1,736 million. The Company recognized gain on sales of Baht 446 million presented as a part of other income in the consolidated statement of income.

On 19 August 2015, the Company launched the new look Chang Classic bottle. The bottle's colour has also been changed from amber to green. The new Chang Classic will be only a 5.5 percent of alcohol, down from 6 percent of alcohol previously. The new beer is a part of the company's strategy. In addition, the Company discontinued several beer products - Chang Light, Chang Export and Chang Draught and consolidated all its beers under the Chang Classic brand in line with its vision to become a "sustainable leader" in the beer market in ASEAN by 2020.

The Thai economy in 2015 grew at 2.8% when compare to the previous year. The main supporting factors were from the continuing growth of public investment, the accelerate government budget disbursement and the economic stimulus package. Moreover, the rise in number of international tourists continuously supported the growth of economy. The private consumption and investment also recovered gradually from previous year due to lower oil price and inflation rate. However, the negative factors were a slowdown of world economy, especially the main trading partners of Thailand such as China, caused the exports of goods to grow at a lower rate, the drought and the drop in agricultural prices caused lower farm income and a slowdown of household spending.

The beverage market in Thailand in 2015 was affected by an increase in tax on alcoholic beverages collected for the National Sports Development Fund, resulting in higher alcohol product prices. In addition, the decline in purchasing power and high household debt caused the consumers to be more cautious about their spending and reduce on-premise consumption, which was challenging to alcohol business. On the non-alcoholic beverages front, the industry had to deal with fierce competition within the sector on both pricing and promotion. However, even under aforementioned difficult economic environment, we are still able to drive our business growth both in terms of sales and profitability in 2015.

However, net profit slightly declined by 0.7% from a slowdown in international spirits sales revenue. In addition, because of corporate restructuring into separate product groups, staff costs also rose as the Company had to hire more sales force.

Overall non-alcoholic beverage market remained competitive in 2015. The Company employed new product launch strategy in order to meet various consumer demands. During the year, new product development included 100PLUS and Jubjai, which resulted in an increase in sales revenue. Moreover, as consumer behavior is now shifting toward healthier beverages, the sales volume of our drinking water increased as well.
