## **Review Report of Certified Public Accountant**

### **To the Board of Directors of Thai Beverage Public Company Limited**

I have reviewed the accompanying consolidated and separate balance sheets as at 30 June 2008, and the related statements of income for the three-month and six-month periods then ended, and the related statements of changes in equity and cash flows for the six-month period then ended of Thai Beverage Public Company Limited and its subsidiaries, and of Thai Beverage Public Company Limited, respectively. The Company's management is responsible for the correctness and completeness of information presented in these financial statements. My responsibility is to issue a report on these financial statements based on my reviews. The consolidated and separate statements of income for the three-month and six-month periods ended 30 June 2007 and the related statements of changes in equity and cash flows for the six-month period ended of Thai Beverage Public Company Limited and its subsidiaries, and of Thai Beverage Public Company Limited, respectively, were reviewed by another auditor whose report dated 14 August 2007 stated that nothing had come to his attention that caused him to believe that those financial statements were not presented fairly, in all material respects, in accordance with generally accepted accounting principles.

I conducted my reviews in accordance with the auditing standard on review engagements. This Standard requires that I plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit in accordance with generally accepted auditing standards. I have not performed an audit and, accordingly, I do not express an audit opinion on the reviewed financial statements.

Based on my reviews, nothing has come to my attention that causes me to believe that the financial statements referred to above are not presented fairly, in all material respects, in accordance with generally accepted accounting principles.

The consolidated and separate financial statements for the year ended 31 December 2007 of Thai Beverage Public Company Limited and its subsidiaries, and of Thai Beverage Public Company Limited, respectively, were audited by another auditor who expressed an unqualified opinion on those financial statements in his report dated 27 February 2008. The consolidated and separate balance sheets as at 31 December 2007, which are included in the accompanying financial statements for comparative purposes, are components of those financial statements.

*M*

Disclosure of significant differences between generally accepted accounting principles in Thailand and International Financial Reporting Standards is not a required part of the basic financial statements under generally accepted accounting principles in Thailand, but it is presented in Note 19 to the financial statements for information purposes only. I have not audited or reviewed such information and therefore do not express any audit opinion or review report thereon.

**15 Changes in accounting policy**

The following change of accounting policy by the Group has no effect on the separate financial statements of the Company.

Until 31 December 2007, the Group accounted for goodwill arising from a business combination at cost less accumulated amortisation. Amortisation was charged to the statement of income over the estimated useful life of 20 years.

During 2007, the Federation of Accounting Professions issued Thai Accounting Standard (TAS) 43 (revised 2007) "Business Combinations" which is effective for annual accounting periods beginning on or after 1 January 2008. TAS 43 (revised 2007) requires that the acquirer shall, at the acquisition date, recognise goodwill acquired in a business combination as an asset at cost. After initial recognition, goodwill shall be measured at cost less any accumulated impairment losses.

The Group has, accordingly, changed its accounting policy for goodwill prospectively from 1 January 2008. The effect of the change in accounting policy on the Group's consolidated financial statements for the six-month period ended 30 June 2008 is to reduce the charge to the statement of income resulting from the amortisation of goodwill that would have been recognised under the previous accounting policy by approximately Baht 26.1 million, with a corresponding increase in reported profit for the period. Management has determined that there is no impairment in the carrying value of goodwill as at 30 June 2008.

**18 Reclassification of accounts**

Certain accounts in the 2007 financial statements have been reclassified to conform to the presentation in the 2008 interim financial statements.

**19 Significant differences between Thai GAAP and IFRS (unaudited/ unreviewed)**

These consolidated financial statements have been prepared in accordance with generally accepted accounting principles in Thailand ("Thai GAAP"), which differ in certain significant respects from International Financial Reporting Standards ("IFRS"). The following disclosure provides a summary of certain significant differences between Thai GAAP and IFRS, as applicable to the consolidated financial statements of the Group, and a reconciliation of net profit and total shareholders' equity from Thai GAAP to IFRS. Neither the narrative summary nor the reconciliation should be construed as being exhaustive or presented fairly in all material respects and are provided for information purposes only.

**(a) *Deferred tax***

There is no Thai accounting standard currently effective in relation to accounting for deferred taxes. Whilst not specifically addressed in Thai GAAP, provisions for income taxes of the Group are typically based on corporate income taxes currently payable in the period under the Revenue Code of Thailand. The Group does not, therefore, recognise deferred tax assets and liabilities for the current period.

Under IFRS, provision is made for deferred tax using a balance sheet approach, with deferred tax calculated on temporary differences, being the differences between the tax and the book values of assets and liabilities. The deferred tax charge or credit is the change in the period in deferred tax liabilities and assets. Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be fully utilised.

**(b) *Employee benefits***

There is currently no Thai accounting standard in relation to accounting for employee benefits, including termination, retirement and post-retirement benefits. The Group's primary obligations in respect of employee benefits are contributions on behalf of employees to provident funds and the payment of statutory severance benefits on retirement and terminating employment involuntarily. Severance termination and retirement benefits vary according to various factors, including the employee's service life and salary. Whilst not specifically addressed in Thai GAAP, contributions are charged as an expense as incurred.

**Thai Beverage Public Company Limited and its Subsidiaries**  
**Notes to the interim financial statements**  
**For the three-month and six-month periods ended 30 June 2008 (Unaudited)**

Under IFRS, employee benefits are accounted for in accordance with IAS No. 19 *Employee Benefits*. Accordingly, termination benefits are recognised as a liability and an expense when, and only when, the enterprise is demonstrably committed to either terminate the employment of an employee or group of employees before the normal retirement date or provide termination benefits as a result of an offer made in order to encourage voluntary redundancy.

Retirement benefits are recognised as a liability, being the net total of the present value of the obligation at the balance sheet date less the fair value of any plan assets and recognised as an expense the net total of current service costs, interest costs, past service costs and any actuarial gains and losses.

**(c) *Financial instruments***

Thai GAAP has certain disclosure requirements for financial instruments, but only limited guidance on the recognition and measurement of financial instruments. The Group has decided not to recognise derivative financial instruments on the balance sheet. However, foreign currency assets and liabilities hedged by these contracts are translated into Thai Baht at exchange rates prevailing on the balance sheet date.

Under IFRS, derivative financial instruments are recognised on the balance sheet as either an asset or a liability initially at cost, which is the fair value of consideration given (in the case of an asset) or received (in the case of a liability). Transaction costs are included in the initial measurement. Subsequent to initial recognition, derivative financial instruments are stated at fair value. Movements in fair values are recognised in the consolidated statement of income.

**(d) *Investment in property***

In accordance with Thai GAAP, owned land held to earn rentals is classified as part of property, plant and equipment. This land is carried at a revalued amount less any subsequent accumulated impairment losses. Movements on the revaluation surplus are reflected in equity.

Under IFRS, owned property held to earn rentals is classified as part of investment property. This is covered by IAS No. 40 *Investment Property*. IAS No. 40 allows enterprises to choose either a fair value model or a cost model to measure investment property.

In accordance with the fair value model, an enterprise should measure all of its investment property at its fair value. A gain or loss arising from a change in the fair value of investment property should be included in net profit or loss for the period in which it arises.

In accordance with the cost model, land and buildings held as investment property should be measured at cost less any accumulated impairment losses.

For the purposes of disclosure under IFRS, the Group has adopted the cost model for investment property consisting of both land and buildings. For Thai GAAP, the land has been revalued while the buildings have not.

**For the three-month and six-month periods ended 30 June 2008 (Unaudited)**

(e) **Business combination (Goodwill)**

Until 31 December 2007, Thai GAAP requires goodwill acquired in business combination to be systematically amortised over its estimated useful life, although its useful life should not exceed 20 years from initial recognition.

During 2007, Thai GAAP on goodwill was revised in accordance with IFRS which is effective for accounting period beginning on or after 1 January 2008.

Under the newly revised Thai GAAP, acquired goodwill is measured after initial recognition at cost less any accumulated impairment losses. Therefore, goodwill is not amortised and must be tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired.
